WHY CHOOSE NEXUS UNIVERSITY?

As early movers in the world of online learning, Nexus University was founded to make higher education more accessible than ever. The University will prepare you to belong wherever you go by elevating your presence at policy tables globally.

NEXUS
UNIVERSITY

WHAT WILL YOU LEARN IN THIS PROGRAM?

Nexus University's Doctorate of Nursing Practice (DNP) program at Nexus University is designed to prepare nurses to assume leadership roles incorporating advanced clinical expertise, quality improvement methods, patient safety and care technology, health care policy for advocacy, and health system changes. Through scientific theory, evidence-based practice, information technology and practicum experiences, we facilitate the development of well-prepared nurse leaders.

Graduates can enter strategic leadership positions that will impact healthcare outcomes of individuals and populations. The merging of practical knowledge with organizational systems, healthcare policy, interprofessional collaboration, population health and leadership experience allow graduates to contribute to the transformation of healthcare.

The program of study is completed in 6 sequential semesters. Each semester contains two 8-week sessions and students take a maximum of 3 credit hours per 8-week session. The students will complete 250 practicum hours in each of the practicum courses

for a total of 1,000 practical hours. The program's instructional modality includes 100% online for theory course content and the practicum experiences will be in a healthcare facility. The core courses must be completed before the practicum courses can be started.

- Theoretical Scientific Underpinnings
- Organizational Leadership and Advanced Nursing Practice
- Analytical Methods for Evidence-Based Practice
- Research and Analytical Methods
- Informational Systems and Patient Care Technology
- Population Health Concepts
- Healthcare Policy and Ethics
- Organizational Management and Finance in Healthcare
- DNP Project Practicum I, II & III
- DNP Project Capstone Practicum

WHAT CAN YOU DO WITH A DNP?

A DNP prepares you for a wide range of higher-level roles. With this degree, you will be at the top of your field, qualified to serve in diverse roles across practical care, policymaking, organizational administration, education and beyond.

These roles include, but are not limited to:

- Healthcare Executive/Chief Nursing Officer
- Nurse Educator
- Nurse Researcher
- Nurse Supervisor
- Health Services Manager
- Healthcare lobbyist

DNP QUICK FACTS

Here are a few key things to know about being a DNP, according to NurseJournal.org¹.

- The DNP is the highest level of education available in the field of nursing.
- DNP-holders enjoy higher salaries than nurses with BSNs and MSNs, earning an average of \$104,489/year².
- Top-paying DNP positions include chief nursing officer (\$151,000/year on average).
- DNP programs teach higher-level skills in nursing practice and DNPs strive to improve patient outcomes.
- DNP-holders often take leadership positions in large healthcare organizations or facilities. Some also work as expert clinicians or secure academic positions that emphasize clinical practice and education.
